

Manual Benders:

Folders

Folder features:

- High tensile steel one-piece clamping blade.
- Standard backstop setup.

Standard features:

- Screw adjustment for material thickness.
- Adjustable clamping and bending beam.
- Clamp beam lifts up to 150mm.
- Large bronze bushes with proper grease nipples for lubrication at all points of wear.
- Just like Epic's complete range of machinery. The design and fabrication of Epic's manual folders and pan brakes have benefitted from Epic's ongoing improvements.

Optional features:

- Available with hydraulic cylinder to allow for hydraulic bending whilst maintaining the manual clamping system (Operated using a hand valve and powered by 240Volt or 3 phase kits.)
- TDF bed slots.

Pan Brakes:

Pan brake features:

- High grade flame hardened clamping fingers. Fingers are located on a machined dovetail.
- Standard back stop setup.

Optional Pan Brake features:

- One-piece clamping blade with inserted high tensile steel blade.

Manual bending Machines are available in:

- 1240mm x 2mm
- 1860mm x 2mm
- 2460mm x 2mm
- 3085mm x 1.6mm

Specifications may change due to Epic's continuing advancing in designs.
